Hunters are picked up from accommodation and dropped off at hunting areas by a safari vehicle. Any animal taken will be called in and collected ASAP, and the hunter can continue hunting. Animals are skinned, tagged and hung in chiller. Hides, horns and red offal are also tagged and stored. This service is included in the daily hunting fee that you pay.

Caping and field preparation of trophies are included in the fee.

What to bring

- Containers for transporting of meat eg. black bags, cooler boxes etc. Please note : We do not supply any packaging at all. Vacuum sealing at extra cost if required.
- Tick Repellent – either Bayticol or No-Tick Spray, or a cheaper, more effective method is to put a few drops of Teatree Oil into your shower gel. We have found this works the best.

Meat & Processing

- Our butchery can process your meat at an affordable additional cost. Products include : biltong, droewors, steaks and boerewors. We do not exchange game for processed products.
- Your products will be prepared in the order of which the animals arrive at the butchery. Once it is ready, we will contact you in order for you to make arrangements for the collection of your products – refrigerated trailer delivery can be arranged at R10 per running kilometer from the farm to one drop-off point only.
- Butchery facilities are not available to hunters to process or cut up their own meat.

Hunting Skills

We take any hunter older than 5 years - first time hunters – young and old. Please note that all hunters will need to successfully do a target shoot and sighting-in at the shooting range prior to being permitted to hunt in order to minimize the chances of wounding an animal.
