## **ELECTRONIC SUBMISSION OF SHOT-TARGETS AND SHOTGUN SCORECARDS**

*(geen Afrikaanse teks weens dringendheid van boodskap - verskoning asb)*

Due to the post office being on strike yet again and due to the fact that we have experienced increasingly bad service delivery by the post office, Exco has taken the decision to allow our members to scan and e-mail their shot-targets or clay target shooting scorecards to the office - be that for in-house scores logging or for completion of practical for dedicated status courses.

We, have, therefore included on our web site a compulsory sworn statement that must accompany all shot-targets or shotgun scorecards submitted electronically ([admin@natshoot.co.za](mailto:admin@natshoot.co.za) for in-house logging and [member@natshoot.co.za](mailto:member@natshoot.co.za) for dedicated courses - or fax to 0865-113-555).

See <http://www.natshoot.co.za/page/postal-target-shooting>

Download the relevant spreadsheet (target or shotgun scorecard) - fill in all statements and electronically submit with shot-targets (Excel format - complete, save on desktop, and forward by e-mail with scans of shot-targets or scorecard - or fax together with shot-targets or scorecard)

Without this statement accompanying electronically submitted shot-targets and scorecards (see there is a separate statement for shotgun scorecards), said shot-targets or scorecards will not be accepted.

Please note that we shall not be in communication with members who do not

submit the sworn statement with electronically submitted shot-targets or scorecards (it remains the responsibility of members to at least comply with our request in this instance please).

It will take a day or two to change the text of the guides for the different exercises to reflect this change in policy - bear with us there please

In the mean time the web site's members' logging pages are **STILL** not operational - we beg pardon for that please - situation out of our hands - the techie has indicated that we shall definitely be able to use the full function from 1 September 2014 (for us that remains to be seen and we shall only inform you of said functionality once we are certain that it is really up and running and working 100% - so as to save us continuous red faces)

Kind regards  
Herman Els
